April 9, 2021

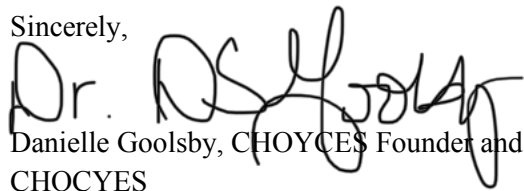

To whom this may concern:

I recently had the opportunity to work with Evan Huang in the Winter/Spring 2020-2021 Web Design internship at CHOYCES where we aim to Creatively Help Our Youth Conquer Education & Success. It is my pleasure to now recommend him for further opportunities with your organization.

In all of his work throughout the fall, Evan continually displayed commitment and professionalism while interning at CHOYCES. He helped write codes for website pages. He became familiar with bluehost and wordpress, the platform used to create the company website. His skills led to amazing contributions to his team and the organization as a whole. Evan collaborated with other teams such as curriculum development and the Gaming and Mobile App team to assist in completing department related tasks. To enhance his skills while serving as an intern, he engaged in webinars and written reflections to enhance his knowledge and skills related to human resources.

As such, I was very impressed with Evan's skills, as he was younger than his counterparts, yet came in with so much knowledge and skills related to the Web Design Department. I believe Evan would be a great addition to your team or institution in both their skills and personality. He will not only be an asset for your own growth but will absolutely grow to achieve great things under your experience. If you have any further questions about this applicant, please feel free to reach out at [dgoolsby@choyces.org](mailto:dgoolsby@choyces.org), this letter can only capture so much of the work Evan has completed as part of the CHOYCES team.

Sincerely,

Danielle Goolsby, CHOYCES Founder and CEO  
CHOYCES

Creatively Helping Our Youth Conquer Education and Success

*"It is the supreme art of the teacher to awaken joy in creative expression and knowledge." Albert Einstein*
